

Shanna Hazel A. Palomo

16 Vicente Pacis St., BFRV • Las Piñas City, 1747 • shannahazelpalomo@gmail.com • +63 976-022-9833

Education

De La Salle–College of Saint Benilde

Bachelor of Science in Information Systems, Specialization in Information Security
Thesis: Integrated Web and Mobile Hotel Management System

Manila, Philippines
September 2022 – June 2026

STI College of Las Piñas

IT in Mobile App and Web Development (MAWD)

Las Piñas City, Philippines
2020 - 2022

Experience

Wizy Software Labs Inc.

Software QA Intern

Quezon City, Philippines
September 2025 – December 2025

- Executed manual test cases for web-based application features to validate functional requirements
- Assisted in writing and organizing structured test cases based on system specifications
- Reported and documented defects with clear reproduction steps, expected results, and severity levels
- Performed regression testing after bug fixes to ensure issues were resolved and no new defects were introduced
- Collaborated with developers during defect retesting and verification phases
- Supported test documentation and participated in requirements review discussions

Leadership & Activities

Capstone Project, Integrated Web and Mobile Hotel Management System

Leader, Web Programmer, QA

Manila, Philippines
September 2024 – December 2025

- Conducted functional and workflow testing across booking, billing, and service request modules
- Designed and executed structured test scenarios covering user and admin roles
- Verified authentication logic, form validation, and session handling processes
- Performed database testing to ensure correct transaction recording and data consistency
- Identified UI inconsistencies and logical errors before system deployment

Aphelion: Cats & Dragons, Game Development Project

Programmer

Manila, Philippines
September 2022 – 2023

- Participated in the development and testing of a 2D game application, focusing on functionality validation and gameplay mechanics
- Executed manual testing on character interactions, scoring logic, and level progression
- Identified and documented gameplay bugs and UI inconsistencies to improve overall user experience
- Assisted in debugging logical errors affecting in-game mechanics and performance
- Collaborated with team members during development sprints to ensure feature stability before release
